

# General Contracting Turnkey Glass Factory

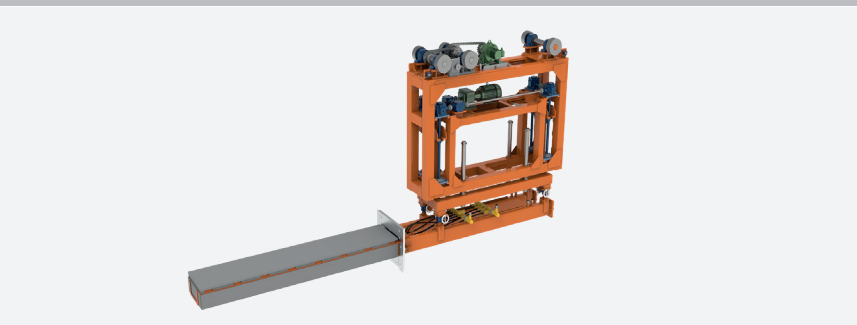

## EcoMelt® Regenerative Melting Furnace

## StewartFloat® Tin Bath

## AcuraCoat® Online CVD Glass Coating System

# Stewart Engineers Glass Manufacturing Solutions

## *General Contracting*

Turnkey Glass Factory

- Full Engineering Procurement Construction (EPC) Contractor
- Customized, Client-Specific Solutions
- Premier Project Execution
- Advanced Hot-End & Glass Coating Technologies
- Expertise in Glass Commissioning & Operations
- On Time - On Quality - On Budget

Energy Efficient Furnace

- Energy Efficient Glass Melting
- Electric Melt and Regenerative, Multi-Port Designs
- Customizable Tonnage
- Extended Furnace Lifespan
- Proven Reliability in Commercial Operations
- Glass Compositions: Standard, Ultra Clear, Tints, Borosilicate

Tin Bath

- Premier Tin Bath Design
- Customizable Glass Thickness & Widths
- Proven High Quality Glass Production
- Over 35 Years of Expertise
- 23 StewartFloat® Tin Baths Currently in Operation
- Seamlessly Integrate with AcuraCoat® Systems

CVD Glass Coating System

- Industry Leading Online Glass Coating Systems
- Durable Coatings for All Climates
- Wide Range of Coating Applications
- Seamless Integration with StewartFloat® Tin Baths
- Cost Effective and Reliable
- Transforms Float Lines into High Value Producers
